**MPC BOARD OF MANAGEMENT (BOM)**

<b>TITLE</b>	Workshop and Discussion on the Implementation of Good Energy Efficiency Practices by the Ministry of Health and Concession Companies
<b>DATE / DURATION</b>	1 Jun – 31 Oktober 2024
<b>BACKGROUND AND OBJECTIVES</b>	<p>The Energy Performance Contract (EPC) is a performance contract that allows organizations to upgrade their facilities to be more energy-efficient without having to spend money upfront. The cost of the improvements is paid back over time using the savings generated by reduced energy consumption.</p> <p>According to the 2023 World Competitiveness Ranking report for the Energy Intensity indicator, Malaysia's position is 57th out of 64 economies. Addressing the performance of these indicators is essential for improving our standings and, more importantly, our environmental health and sustainability.</p> <p>In line with Energy Efficiency and Conservation Bill, the affected industries will have to collect, monitor, audit energy consumption. The new requirement will require additional effort from the demand side to improve the usage of energy.</p> <p>Based on recent PEMUDAH meeting on 16 Jan 2024, the meeting agreed that MPC to explore on:</p> <ul style="list-style-type: none"> <li>i. working with relevant ministries/agencies to explore a new policy for EE;</li> <li>ii. engaging with KKM and ESCO on how to execute EPC on government buildings.</li> </ul> <p>The objectives of the project are:</p> <ul style="list-style-type: none"> <li>i. to ensure EE is to be recognised as one of Green Products;</li> <li>ii. to develop sound EPC for government buildings;</li> <li>iii. to learn best practices on EPC audit;</li> </ul> <p>This project is in line with RMK12 and MPB.</p>

<b>METHODS OF IMPLEMENTATION</b>	EPC Gemba activity through energy audit report and addressing barriers and recommendation in implementation of EPC.
