IMD Boot Camp: Building Regional Resilience – The New Rules of Ecosystem and AI

Join us for this year's *IMD Boot Camp: Building Regional Resilience – The New Rules of Ecosystem and AI*, a two-day executive learning experience designed to explore how businesses in Asia can navigate uncertainty, harness AI, and build future-ready ecosystems.

This year's event features two esteemed IMD faculty members: **Professor Mark Greeven**, Professor of Innovation and Strategy and Dean of Asia, and **Professor José Parra Moyano**, Professor of Digital Strategy at IMD. Together, they will lead four thought-provoking sessions across two days — each addressing a distinct but interconnected aspect of ecosystem design and AI adoption.

On Day 1, Professor Mark Greeven will guide us through two sessions:

- **Session 1** explores how to build shock-resistant ecosystems by blending strengths from Eastern and Western models of innovation, governance, and AI integration.
- **Session 2** dives into flexible ecosystem design strategies that help organizations adapt, scale, and thrive amid disruption.

On Day 2, Professor José Parra Moyano will lead:

- **Session 3** introduces the Value–Data–People framework to help leaders cut through AI hype and prioritize initiatives that drive real impact.

- **Session 4** focuses on designing human–AI teams that unlock the true potential of collaboration, productivity, and innovation.

Each session offers a practical, research-backed lens into the future of business resilience—equipping you with the tools, frameworks, and strategic insights needed to lead with confidence in a rapidly changing world.

Register now to secure your place and be part of the conversation shaping the future of AI and ecosystems in Asia!

Key Information

Date: 07–08 July 2025

Day 1: 13:30-14:00 (registration) 14:00-18:15 (sessions 1 and 2), 18:15 onwards (networking dinner)
