Regulation

Explore the critical issues,
challenges, strategies and
techniques in regulation.

Understand today. Influence tomorrow.

At LSE Executive Education, we see the world as interconnected.

We are not just another business school. As a leading social sciences university, we believe a multidisciplinary approach and understanding is fundamental to success across sectors, corporations and organisations.

LSE has been a pioneer in providing executive education for professional development since our inception in 1895. Founded to know the causes of things for the betterment of society, LSE's mission remains as

relevant today as ever—our global influence extends beyond the business world, with 37 world leaders and 18 Nobel prize winners having taught or studied at LSE.

We take an unashamedly intelligent approach to executive education. Rated number one in the UK by the Research Excellence Framework, our world-class research and outstanding faculty shape the LSE Executive Education learning experience. We forge leaders who shape our world, change-makers who see the power in exploring the cause of things, and executives who know that if you want to influence tomorrow, you need to understand today.

This is the LSE Advantage.

— Regulation

Master the legal, economic and political issues and challenges in regulation.

Understanding the theory, the stages of regulatory process and how regulation operates on the ground can be complex. This intensive programme effectively demystifies regulation; from law and rulemaking to institutional frameworks and enforcement and will empower you to accelerate your performance, and your competitive advantage in the commercial sphere.

5 Days in length

World class faculty

Central London location

Key Topics

- Justifying regulation and regulatory methods
- Network regulation
- Supranational issues in regulation
- Regulation and risk
- Rules and responsiveness.

Timetable →

Programme Benefits

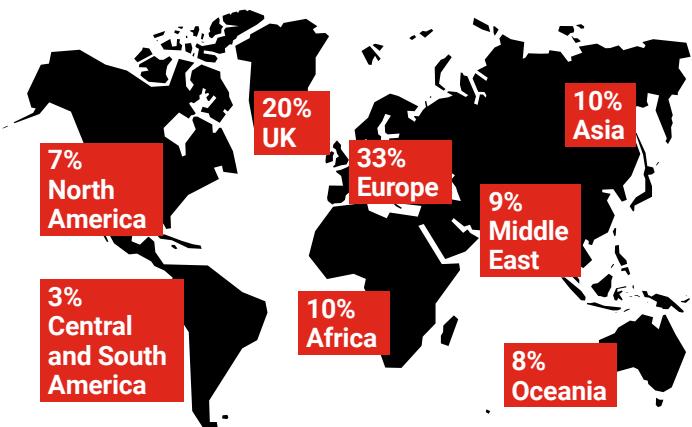

- Understand the key challenges in regulation and how to respond to them strategically
- Learn to evaluate regulatory quality and the criteria that make for excellent regulators
- Discover how to apply risk frameworks to regulation and enforcement operations and how to choose the lowest cost methods of regulating effectively
- Know how to foster effective use of competition, markets and self-regulation
- Appreciate value of regulatory review frameworks as tools to improve regulation.

— Attendee Profile

Who is this programme suitable for?

- Regulators from all levels and functions
- Staff of regulated concerns
- Consultants in regulation
- Policymakers dealing with regulatory issues
- Lawyers, accountants, economists and other advisors on regulatory matters
- Minimum five years' professional experience. Typically our participants have more than ten years' work experience, but we will consider those with less experience who have enjoyed an accelerated career path to a senior level.

Participants from over 60 countries:

Participants from various industries:

"In three words, the programme was informative, engaging and fun. The mix of people all from all over the world, doing different jobs, in different structures and contexts is very interesting."

David Pilling

Head of Lobbying and Policy, Ombudsman Services

Faculty

Professor Robert Baldwin

Emeritus Professor of Law, Robert Baldwin has authored numerous books and articles on regulation including 'Understanding Regulation'. He has advised numerous corporations, international bodies and government departments on regulation and is a member of the National Audit Office's Panel of Regulatory Experts.

Professor Veerle Heyvaert

Veerle is a distinguished scholar of law with a career that spans both sides of the Atlantic. She holds an LL.M from Harvard Law School, a PhD from the European University Institute in Florence and was the inaugural Sir Peter North Fellow at the Centre for Socio-Legal Studies and Keble College, Oxford.

Professor Martin Lodge

Martin is a member of the Department of Government and is currently the Director of the Centre for Analysis of Risk and Regulation (CARR) at the ESRC. His research interests include institutional analysis, comparative regulatory regimes and policies and German, British and EU public policy.
