

BENCHMARKING VISIT INDUSTRY 4.0
3rd-8th OCTOBER 2022
TOKYO, JAPAN

IN COLLABORATION WITH JAPAN PRODUCTIVITY CENTER (JPC)

Introduction

The Industrial Revolution 4.0 has penetrated across the industrial world. It promotes innovation in organizing and controlling the entire value chain life cycle. The Industrial Revolution 4.0 not only brings convenience, but it also acts as a new trend toward smart technology.

Hence, Malaysia Productivity Corporation (Northern Region Office, Penang, Malaysia) are taking the opportunity by conducting 'Benchmarking Visit Industry 4.0 to Tokyo, Japan' especially for Small Medium Enterprise (SME's)

Objective

Sharing best practices from visited organizations to improve the productivity and widespread knowledge and best practices in the industry.

Expected Outcome

Disseminate information to Malaysian industry community on the importance and preparation to enter the Industrial Revolution 4.0 in helping to improve productivity and competitiveness of the country
