

Rabiatul Hana Ishak
10-7, Melati Impian Apartment
Jalan Madrasah, Taman Melati,
53100, Kuala Lumpur

1 Ogos 2022

YBhg. Dato' Abdul Latif Hj. Abu Seman
Ketua Pengarah
Perbadanan Produktiviti Malaysia
Lorong Produktiviti, Off Jalan Sultan,
46200 Petaling Jaya
Selangor Darul Ehsan

Melalui:

Puan Wan Fazlin Nadia Wan Osman
Pengarah Seksyen Daya Saing Negara

YBhg. Dato' Abdul Latif,

**PERMOHONAN CUTI SEPARUH GAJI UNTUK MENJAGA IBU YANG
MENGHADAPI MASALAH KESIHATAN**

Dengan segala hormatnya saya merujuk kepada perkara di atas.

2. Saya Rabiatul Hana Ishak yang bertugas sebagai Penolong Pengurus E41 di Sksyen Daya Saing Negara, Ibu Pejabat Perbadanan Produktiviti Malaysia (MPC) ingin membuat permohonan cuti separuh gaji daripada tarikh 12 September 2022 hingga 11 Oktober 2022.

3. Untuk makluman YBhg. Dato', permohonan cuti separuh gaji ini adalah bertujuan untuk menjaga ibu saya menghadapi masalah hati, *Transaminitis Liver Disease*. Disebabkan usia ibu saya yang lanjut, pakar perubatan tidak mencadangkan pemberian ubat sebagai rawatan, sebaliknya, ibu saya memerlukan pemantauan dari segi penjagaan pemakanan yang teliti dan gaya hidup seperti diet dan senaman.

4. Pada 11 Oktober 2022 nanti, pemeriksaan sampel darah ibu saya akan dibuat di Bahagian *Gastroenterology*, Hospital Kuala Lumpur (HKL) bagi mendapatkan kepastian sama ada penyakit yang dihadapi beliau berpunca daripada hati ataupun organ dalaman lain. Justeru, saya ingin memantau pemakanan dan gaya hidup ibu saya selama sebulan bagi menyediakan beliau untuk pemeriksaan sampel darah tersebut.

5. Sehubungan dengan itu, saya ingin memohon pertimbangan YBhg. Dato' untuk meluluskan permohonan cuti separuh gaji saya ini. Segala perhatian YBhg. Dato' dalam perkara ini didahulukan dengan ucapan terima kasih.

Sekian.

Dipohon oleh,

Cik Rabiatul Hana Ishak
Penolong Pengurus
NCS/PCD

Disokong oleh,

Puan Wan Fazlin Nadia Wan Osman
Pengarah
NCS/PCD

ULTRASOUND NO : US 5234/2022		
REQUESTED BY : DR AZAHIRAFAIRUD	DEPARTMENT: MEDICAL	WARD/CLINIC: MOPD
INDICATION : TRANSAMINITIS TRO LIVER DISEASE		
COMPARISON or CORRELATION WITH PREVIOUS FILMS: NIL FINDINGS : Liver has increased in parenchymal echogenicity with smooth echotexture. It has preserved margin and sharp edge. Liver span measures 12.4cm. No focal liver lesion. Portal vein is patent with normal calibre and doppler flow. No biliary duct dilatation. Gallbladder is distended with no calculus within. Small echogenic foci arising from its internal wall, measuring 0.6cm, likely represent GB polyp. No gallbladder wall thickening or pericholecystic fluid. Visualized pancreas is normal. The rest of the pancreas is obscured by overlying bowel gas. Spleen is homogeneous with normal size, no focal splenic lesion. No free fluid over the upper abdomen		
IMPRESSION : Gallbladder polyp. Fatty liver.		
FOLLOW UP : <i>As per primary team planning.</i>
