

# Site visits to Synthomer and Chemtrax Sdn Bhd

## Objectives:

1. To gain firsthand insights on the user (clients/ LSP/ industry) benefits derived from the e-Roads system
2. To understand the e-Roads system and data input process
3. To present e-Roads product solution roadmap
4. To discuss and explore JPJ integration requirements
5. To establish project timeline for data integration and system development

## Proposed Schedule:

1. 20 – 22 August; or
2. 27 – 29 August
